Green Finance

“Advancing Higher Education for Sustainable Growth
in Southeast Asia”

Project Objectives

The aim of the Green Finance project is to contribute to the modernization of the Higher Education system in enhancing the quality, relevance and responsiveness of Higher Education in the Philippines, Thailand and Vietnam by:

Building and reinforcing the capacity of teaching and research staff to modernize curricula

Develop new and innovative teaching to address the challenges of socio-economic recovery, growth and prosperity in line with the Green Deal, Sustainable Development Goals (SDGs), and the Paris Agreement

Address the skills gap in sustainable investment and green finance.

Expected Results & Impact

- To develop a digital knowledge-based capacity building center that will support the development and dissemination of knowledge on the Circular Economy.
- The Digital Centre will focus on creation and dissemination of the knowledge and practices in fundamentals of circular economy and transition management of circular economy and sustainability solutions at different levels.

DEFINITION

Green Finance is the strategic redirection of capital toward sustainable projects that protect the environment, combat climate change, and support the transition to a circular economy
